

RECEPTION COUNTERS

FIFTY-FIFTY

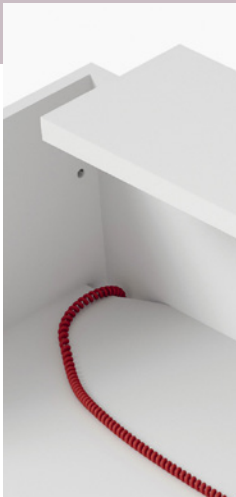

PURE, HARMONIOUS LINES

Designed with a set of two strictly identical panels for the front and the work top and a set of two left and right legs, the Fifty-Fifty reception counter with its pure, harmonious lines can be combined easily to suit your style, receive visitors and work efficiently.

AN EFFICIENT WORK COUNTER

With their rational lines, Fifty Fifty reception desks combine a work surface and a reception top in a single unit. Used individually or associated with other units to create a reception assembly, they adapt to the required confidentiality. Fifty-Fifty combines alternating wood finishes: from front to work surface, from side panel to reception shelf.

Worktop equipped with groove for cable routing as standard feature

Nitech® reception shelf with elegant 45° mitre cut for visitors

- Structurex® counter enhanced by an elegant and imposing Nitech® console.
- Nitech® console acting as reception shelf for visitors.
- Counter designed to accommodate DDA wheelchair users with an extension of the work top.
- Spacious work top with a groove for easy cable management.
- Counters that can be used individually or aligned to adapt to the requirements of small and large companies alike.
- Easy assembly for fast installation.
