

SHARED DESKS

# ASTRO

### **A STYLE MAKING NO COMPROMISE ON FUNCTIONALITY**

The Astro arch metal structure, separated from the top by a spacer, is the ideal choice in open spaces to optimise large multiple office layouts.

Astro furniture can be upgraded to meet proximity and communication requirements, with various privacy, accessory and cable management options to make it even more functional.

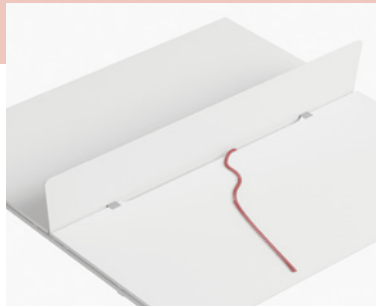

### **SOBER, PURE LINES**

The one-piece arch leg with no signs of folds or welds, the raised top and the leg facing give these desks a timeless style.

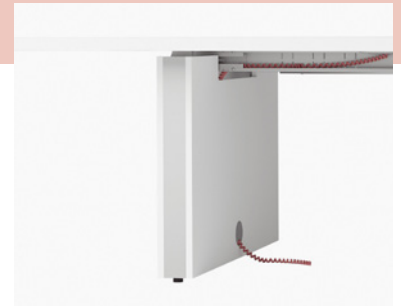

The Nebraska Oak finish and unpainted metal leg revisit Astro with an industrial look.

Modern and minimalist style of the arch metal leg with raised top

Removable Plexiglas front space divider for a customised work area

Double metal cable tray with great capacity fixed to beams to adapt itself to the sliding tops

- Top depths reduced to 70 cm to optimise the layout, in order to save office space and at the same time be able to accommodate new employees.
- Recessed double arch, used in shared workstation configuration, allowing lateral opening in order to move easily from one desk to the other without leaving your seat.
- Furniture certified NF Environnement and Office Excellence.
- A product including cable management by high-capacity cable channels, a magnetic down-guide, sliding tops for improved accessibility, facings to keep cables out of sight.
- Dividers for privacy and greater concentration.
- A special suspended half-moon extension for extra work or meeting space.
